AMALFI Sun and Glare Control

Simple in his design and effective in blocking UV rays while reducing indoor heat and glare, Amalfi is the perfect and simplest solution to exterior rolling shade needs. Its frame is available in white or brown, or any custom color on request. Offered with any colorful acrylic fabric from solid to stripe patters, Amalfi is also available with white, gray or black solar

screen fabrics able to eliminate up to 90% of undesired solar energy effects while reducing air conditioning costs up to 60%. Thanks to their manufacturing process, solar screen fabrics provide a textile woven look with discrete transparency and the dissipation of solar heat due to the passing air through their fibers.

Product Features

Durable.

Amalfi's simple and yet practical design allows to secure its rails either directly to the ground or along the wall siding without compromising their strength. Its brackets can be installed either vertically or under a soffit by a simple rotation of their position.

Beautiful.

Simple, sleek, light in its structure, Amalfi is designed to enhance the look of your home. Its beauty is guaranteed by an extensive variety of fabrics offered in vivid colors, or by the use of any sunscreen basket weave neutral material, gray, brown, white, black or cream contemporary color.

Elegant.

They say elegance is to stand inconspicuously. Amalfi's discrete design is meant to blend with the molding of your house while extending its presence to your immediate outdoor with graceful ambiance to any setting. You will appreciate Amalfi generous size and uncommon elegance and strength.

Dependable.

Built only with the finest materials, Amalfi frames are finished with electrostatic powder coated epoxy paint in white or brown on all its parts to assure the most durable and yet elegant finishing. Custom colors are also available upon request. Amalfi is covered by a ten-year warranty.

Product Highlights

The side rail system of Amalfi can be secured to the ground as well as along the window siding.

Amalfi's front bar can move silently along the side rails thanks to its Teflon wheels that guarantee its smooth operation.

Amalfi's light frame is easy to install around any window molding with the simple use of light hardware tools.

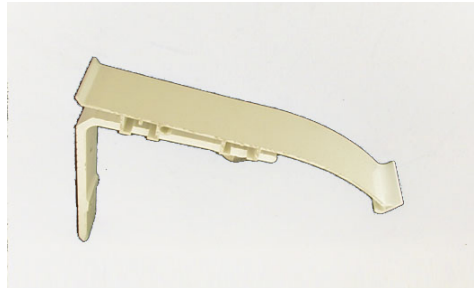

When ordered with its optional cassette, Amalfi's fabric can fully roll up and disappear at its top for complete protection.

Light and compact back brackets allow a quick and simple installation of a cassette either on a vertical siding or under a horizontal ceiling.

Amalfi's metal parts are offered in white or brown powder coating standard finish, or any custom color available upon request.

When ordered with an optional hood, Amalfi is supplied with wall hood brackets

CAUTIONARY AND IMPORTANT OPERATING INFORMATION: Retractable Awnings contain strong springs under tension. Retractable awnings are specifically designed to be retracted under inclement weather conditions and be used primarily for sun protection. They are not designed to withstand high winds, heavy rain or snow. During those times, awnings must be fully retracted to prevent damages not covered by warranty.
