ANTIGUA Contemporary Elegance

With Antigua, Alutex offers the extra modern design of a lateral arm system able to respond to the most sophisticated and demanding markets today.

Antigua is considered to be the third generation of lateral arms. From the classical systems, to the partial "cassette" solutions where only the fabric is fully protected, Antigua provides Alutex's answer to the most contemporary demand for a complete cassette containing the whole system when fully retracted.

Produced with glossy white components fully powder coated, Antigua offers projections up to 12' and a maximum width of 26' of slick cassette.

Controlled manually or by a motorized solution, Antigua is offered with any of the more than 300 acrylic fabrics today available on the market.

Product Features

Durable.

Engineered to satisfy the most stringent mechanical requirements, its arms are tested to last twice the expected life span commonly referred to by the industry and the cables in its arms are protected by UV resistant coating to increase their endurance.

Beautiful.

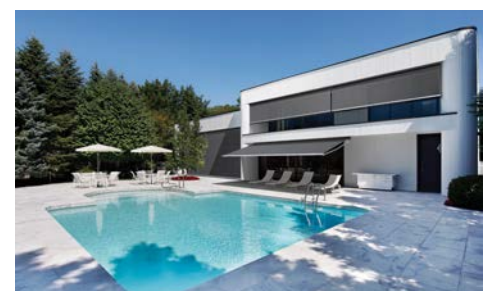

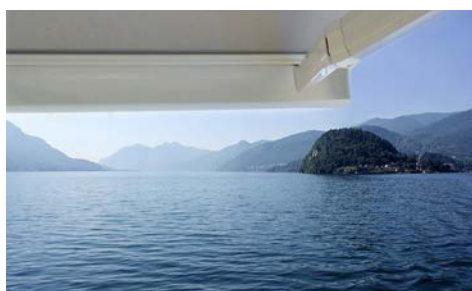

Antigua's slick design has been perceived to enhance the value of any home. With the extensive variety of colors offered today by hundreds of vivid fabrics, Antigua has the look for you.

Elegant.

The modern and essential look of Antigua's cassette is meant to offer a contemporary response to today's sophisticated market expectations. By blending with the modern and yet elegant design of many of today's graceful outdoor settings, it is easy to appreciate the ambiance created by Antigua generous size and uncommon strength.

Dependable.

Built only with the finest materials and finished with electrostatic powder coating epoxy paint, Antigua assures the most durable and yet elegant awning product by resisting against chipping, cracking, and fading. Like all Alutex awnings, Antigua is covered by a ten-year warranty.

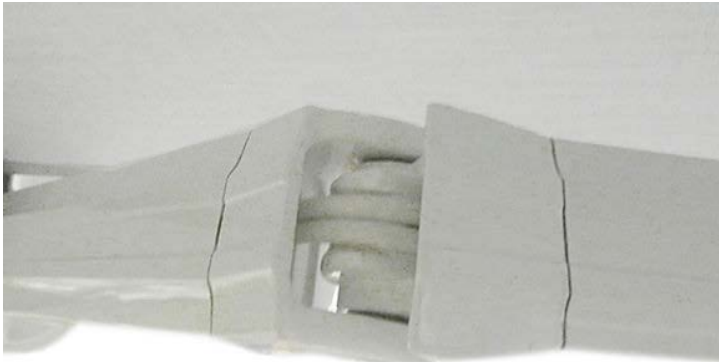

Product Highlights

Antigua's fabric is fully protected when retracted

Antigua's front part is designed to close sealed fabric and arms together.

Antigua's arms are controlled by double cables protected by UV resistant coat tested to last twice the expected life span commonly referred to by the industry.

Antigua's slick box design is the perfect addition to any backyard, deck or patio. Antigua is covered by a ten-year warranty.

CAUTIONARY AND IMPORTANT OPERATING INFORMATION: Retractable Awnings contain strong springs under tension. Retractable awnings are specifically designed to be retracted under inclement weather conditions and be used primarily for sun protection. They are not designed to withstand high winds, heavy rain or snow. During those times, awnings must be fully retracted to prevent damages not covered by warranty.
