## MADERA COMMERCIAL

Heavy-duty with flair

Designed to offer an extra strong solution to commercial applications in public areas such as outdoor restaurants, cafes, and general locations, Madera Commercial can reach up to 14' in projection with its extra heavy-duty arms without compromising its elegant design, and yet be perfectly suitable for residential use.

Because of the extra heavy-duty features of Madera Commercial, its arms are designed to provide above standard

strength and its elbows are supplied with exclusive stainless steel 8.8 Geomet tension chains able to respond to a spring load of up to 600lb. All its hardware is stainless steel as well, and all the frames are guaranteed by Alutex's 10 year warranty.

Madera Commercial's standard arm projections are 10', 12', 13', and 14' and its frames are available in white, brown or cream powder coated finish as standard colors and can be manually or electrically controlled.

### Product Features

#### Durable.

Engineered to satisfy the most stringent mechanical requirements, its arms are tested to last twice the expected life span commonly referred to by the industry. The spring tension of the arms is guaranteed by a heavy-duty chain in its elbows made of stainless steel Geomet 8.8 steel.

#### Beautiful.

Madera Commercial's sleek design has been achieved to enhance the value of your building or storefront. With the extensive variety of colors offered today by hundreds of vivid fabrics, the finish of its parts, its compact look when totally retracted, and elegance of its arms when fully extended, Madera Commercial has the look you want

#### Elegant.

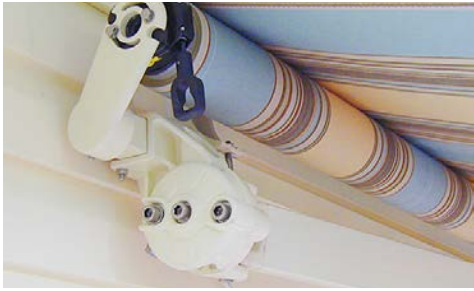

The discrete design of Madera Commercial is meant to blend with the siding of your building while extending its presence to your immediate outdoor offering graceful ambiance to any setting. You will appreciate Madera Commercial's generously size and uncommon strength.

#### Dependable.

Built only with the finest materials, Madera Commercial frames are finished with electrostatic powder coated epoxy paint on all its parts to assure the most durable and yet elegant finish. Like all Alutex awnings, Madera Commercial is covered by a ten-year warranty.

# Product Highlights

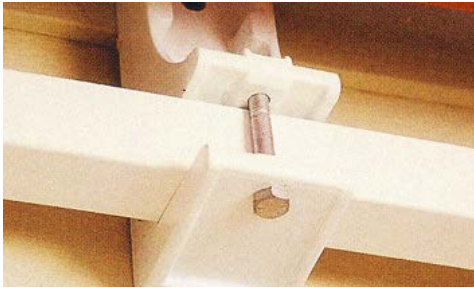

Madera Commercial front element is designed to offer higher inertia to contrast the most demanding bending and deformation without compromising elegance.

Built only with the finest materials, Madera Commercial employs electrostatic powder coated epoxy paint on all of its casting, brackets and joints to secure the most durable and yet elegant finish against chipping and cracking.

Madera Commercial arms are freely connected to the front bar by a joint element that offers an extra smooth rotation of the front pin of the arms during the opening and closing of the awning.

The heavy-duty brackets of Madera Commercial, with its high-gauge steel back square tube epoxy finished and the extra aluminum gauge of its arms, are the three main structural elements of this extra highly robust awning.

With a 30% extra dimension of its arms, Alutex's exclusive self-locking elbows when fully extended, and oversized encapsulated springs, Madera Commercial arms provides extra strength while still responding to the most stringent mechanical requirements.

An optional heavy-duty hood completes the overall look of the awning and to offers an extra protection to Madera Commercial when fully retracted along the wall.

Fabric Options	Over 300 acrylic patterns
Leg Kit	Optional
Standard Frame Color	White, Brown, Cream

Custom Frame Color	Any RAL color (on request)
Frame Warranty	10 Years

**CAUTIONARY AND IMPORTANT OPERATING INFORMATION:** Retractable Awnings contain strong springs under tension. Retractable awnings are specifically designed to be retracted under inclement weather conditions and be used primarily for sun protection. They are not designed to withstand high winds, heavy rain or snow. During those times, awnings must be fully retracted to prevent damages not covered by warranty.
