RIVIERA

Grace of style

Riviera is a retractable canopy that complements the outside of any window while enhancing the value of your home. Designed to provide elegance with simplicity, Riviera offers the European flavor of a Mediterranean cheerful touch.

Dressed with the beauty of hundreds of vivid colors, riviera extends or retracts reducing its storage space to a few inches around the window.

Riviera provides a maintenance free solution while still offering an excellent protection from weather conditions.

Riviera's light aluminum frame can project up to five feet out and fifteen feet across and still maintain its elegant Mediterranean flavor. beauty of its fabric. Hundreds of vivid patterns, specially designed to dress up your home

Product Features

Durable.

Engineered to satisfy the most stringent mechanical requirements, its frame is tested to last twice the expected life span commonly referred to by the industry.

Beautiful.

Riviera's Mediterranean design has been achieved to enhance the value of your home. With the extensive variety of colors offered today by hundreds of vivid fabrics, its compact look when totally retracted, as well as its shape when fully extended, Riviera has the look you want.

Elegant.

They say elegance is to stand inconspicuously but the design of Riviera makes the brilliance come out in your home while providing shade, UV protection and beauty to each window without compromising elegance.

Dependable.

Built only with the finest materials, Riviera frames are made with silver anodized aluminum components to assure the most durable and yet elegant finishing against chipping, cracking, and fading. Like all Alutex awnings, Riviera is covered by a ten-year warranty.

Product Highlights

Elegant and yet affordable, Riviera is built to offer a sophisticated answer to those in search for distinction.

Riviera's aluminum components are finished to last and guarantee the best performance under stringent weather conditions.

Riviera's light frame is easy to install around any window molding with the simple use of light hardware tools.

Riviera's heavy-duty corners provide extra strength among its parts and still maintain the clean and delicate features of its design.

Thanks to its compact design Riviera can withdraw within few inches around the window when completely retracted.

The use of optional braces easily removable without the use of tools can transform Riviera from retractable to firm and wrinkle free as desired.
