ZIP-ROLL Outdoor living

Zip-Roll by Alutex is a cassette system with a roll-up curtain designed to provide wind and rain protection for vertical openings in pergolas, patios, verandas and windows in general.

The side edges of the curtain are finished with a zipper able to slide along a vertical channel inserted into side rails. While the channel allows the vertical mobility of the curtain, the zipper guarantees retention along the side rails providing a sealed rain and wind solution.

Product Features

Discrete.

Perfect for both residential and commercial applications, Zip-Roll is offered in a powder coated white standard color. Custom frame colors are available upon request.

Beautiful.

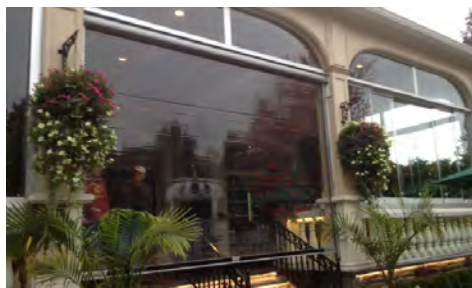

Zip-Roll can be installed to walls, ceilings or between columns for a beautiful see-through view.

Elegant.

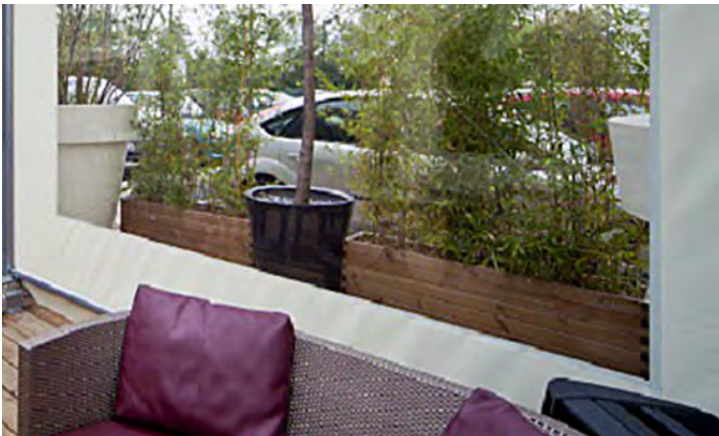

Designed to offer an elegant solution as a roll-up curtain, Zip-Roll allows protection from rain and wind without compromising view and privacy when used with sunscreen fabrics.

Dependable.

Zip-Roll comes motorized and its curtain can be made of transparent vinyl, sunscreen mesh or mosquito screen. Thanks to its removable front cover, the Zip-Roll's cassette can be inspected without disassembling the complete unit.

Product Highlights
